

PREVENTS AND TREATS IRON DEFICIENCY ALLOWED IN ORGANIC FARMING

K-FERRO is a product that combines acidifying and greening properties. Thanks to its high iron content, it has a preventative and curative activity against chlorosis. Its use favors a rapid coloring of the leaves, whose intensity confers lushness and better looks. The magnesium therein present together with iron, contributes to the intense coloring of the vegetative tissues. Sulfur, with its acidifying action, improves the availability of nutritive elements in the soil.

COMPOSITION	
Magnesium oxide (MgO) total	5.00%
Magnesium oxide (MgO) soluble in water	3.00%
Sulfuric anhydride (SO ₃) soluble in water	34.00%
Iron (Fe) soluble in water	12.00%
Manganese (Mn) soluble in water	0.60%

PHYSICO-CHEMICAL FEATURES			
GRANULAR			
pH (sol 1%)		3.20	
Conductivity E.C. S/cm (1‰)		418	
Density (g/cm ³)/Specific weight		1.19	
Granulometry (mm)		1.5	
METHOD OF USE			
	Cover fertilization	Pre-sowing fertilization	Fertilizers for bush transplanting

PACKAGING: 25 KG - PALLET 1500 KG, BIG BAG 600 KG
